

UNIVERSITY of LOUISVILLE®

Presents the Fall Workshop Series 2007

"Autism Boot Camp" and "Curriculum Modifications"

This session will provide participants a deeper understanding of Autism Spectrum Disorders as well as techniques useful across settings. These techniques include visual supports, communication systems and social skills. The curriculum modification section will provide a better understanding of tools and strategies for adapting and modifying the core curriculum to meet the needs of students with autism spectrum disorders. In addition, reinforcers, reinforcement and preference assessments will be discussed. Examples and related software will be shown.
